

Privacy Policy

AiFi Console

This Privacy Policy applies to AiFi Inc.'s ("AiFi", "we", "our" or "us") processing of all personal data and personal information (as defined below) by the AiFi Console ("Console"), a visualization tool that enables our clients to keep a record of store(s) information.

This Privacy Policy aims to be transparent about how we collect, use, and protect personal data and personal information as part of the Console.

❖ *What is personal data?*

The General Data Protection Regulation (GDPR) states that personal data is any information about an identified or identifiable natural person. This means that information is either directly about someone or can be traced back to this person.

❖ *What is personal information?*

The California Consumer Privacy Act (CCPA) as amended by the California Privacy Rights Act (CPRA) defines "personal information" as information that identifies, relates to, describes, is reasonably capable of being associated with, or could reasonably be linked, directly or indirectly, with a particular consumer or household.

❖ *About us*

AiFi processes personal data and information through the Console on behalf of our client who is the data controller. AiFi may process the following types of personal information: personal email address and password.

For further details on how AiFi handles personal data and information, please visit [AiFi's website](#).

❖ *For what purposes do we process personal data and information?*

AiFi processes personal data and information for the purposes of providing the Console to our clients in accordance with a signed, written agreement and AiFi's privacy policies. More specifically, personal data and information is processed for our clients to provide its shoppers with a frictionless checkout-free shopping experience, as well as for the following purposes:

Purpose	Explanation	Data	Access
Improving the AI and the accuracy function.	In order to review a picked-up item due to not reaching accuracy threshold. De-identified, anonymized data and technical data are used for training purposes. All time stamp (and if applicable location data) is removed.	Anonymized video, anonymous tracking token, sensor data, movement of a tokenized stick figure, item information, tracking to inventory data, and virtual basket information.	For this purpose, no personal data is being processed. The training data is used for training the AI and will become a part of the AI data.
DAT contested item on receipt (if outsourced to AiFi).	In order to review a picked-up item in case of a contested item by a shopper.	Blurred video snippets, (live) basket, receipt items, and picked up items.	Temporary and only if the OASIS system indicates that the DAT agent should review
Problem solving	If the OASIS system encounters downtime or technical problem and AiFi needs to resolve the fault in the system.	Anonymized video, anonymous tracking token, sensor data, movement of a tokenized stick figure, item information, tracking to inventory data, virtual basket information and all other technical data that could be required.	AiFi will only have access to the data during the time the problem is not solved.
Storage	If the local store facilities are unable to provide sufficient storage for raw video, AiFi can provide storage at the AiFi cloud.	Video is automatically blurred on premise before it's uploaded to the AiFi cloud. Blurred video is stored. All data, tracking stick figure (uploaded in cloud later).	AiFi will only store the data for this purpose and will not process it in any other way. AiFi will only gain access on request of the retailer, for example to delete the data or to send a copy of the data to the retailer.
Analytics	In the near future retailers can use the OASIS system for analytics purposes. AiFi will provide a dashboard with analytics based on the specific preferences of the retailer.	Anonymized video, anonymous tracking token, sensor data, movement of a tokenized stick figure, item information, tracking to inventory data, virtual basket information, and all other technical data that could be required.	Processing data only for creating a dashboard. Limited access for AiFi employees, only for problem-solving. Aggregated / anonymized data will be used by AiFi for benchmark purposes.

❖ *Rights of EU Residents under GDPR*

Residents of the European Union have the right to be well-informed about what AiFi does with their personal data and why their personal data is required. In addition to the right to be informed, EU residents have the following rights:

- Right to access (if you want to know which personal data is collected about you);
- Right to rectification (we are happy to adjust any personal data that is no longer correct);
- Right to be forgotten (in some cases you can ask your employer to delete your personal data);
- Right to restrict processing (in some cases you can ask your employer to restrict the processing of your personal data);
- Right to data portability (if you want, your employer can pass on your personal data to another party or give you a copy of your personal data);
- Right to object (in some cases you can object to the use of your personal data).

If an EU resident wants to exercise their rights, they can contact the controller at compliance@aifi.com.

❖ *Who do we share personal data with and where do we store it?*
